

## Report on Corporate Governance

**In accordance with Clause 49 of the Listing Agreement with the Stock Exchanges in India (Clause 49) and some of the best practices followed internationally on Corporate Governance, the report containing the details of governance systems and processes at Reliance Industries Limited is as under :**

### 1. Corporate Governance Philosophy

At Reliance, it is our belief that as we move closer towards our aspirations of becoming a global corporation, our corporate governance standards must be globally benchmarked. That gives us the confidence of having put in the right building blocks for future growth and ensuring that we achieve our ambitions in a prudent and sustainable manner.

We are committed to meeting the aspirations of all our stakeholders. This is demonstrated in shareholder returns, high credit ratings, governance processes and an entrepreneurial, performance focused work environment. Our customers have benefited from high quality products delivered at the most competitive prices.

Our employee satisfaction is reflected in the stability of our senior management, low attrition across various levels and substantially higher productivity. Above all, we feel honoured to be an integral part of India's social development. Details of several such initiatives are available in the section on Corporate Social Responsibility.

Traditional views of governance as a regulatory and compliance requirement have given way to adoption of governance tailored to the specific needs of the Company. Clause 49 has set the benchmark compliance rules for a listed company and the baseline for governance standards. Reliance not only adheres to the prescribed corporate practices as per Clause 49 but is constantly striving to adopt emerging best practices worldwide. It is our endeavor to achieve higher standards and provide oversight and guidance to management in strategy implementation and risk management and fulfillment of stated goals and objectives.

Corporate governance has indeed been an integral part of the way we have done business for several decades. This emanates from our strong belief that strong governance is integral to creating value on a sustainable basis. Since our IPO 32 years back, we have grown revenues and net profit by a Compounded Annual Growth Rate (CAGR) of 28.42% and 30.91% respectively. The financial markets have

endorsed this sterling performance as is reflected in a 35.80% CAGR growth in our market capitalization in the past five years. In terms of distributing wealth to our shareholders, apart from having a track record of uninterrupted dividend payout, we have also delivered a consistent unmatched shareholder returns since listing. What epitomizes the impact of all that we do is the fact that our shareholder base has grown from 52,000 after the IPO to around 3.6 million now.

Corporate governance is a journey for constantly improving sustainable value creation and is an upward moving target. We have undertaken several initiatives towards maintaining the highest standards and these include:
